ARRY KUSUMA PUTRA

0813-5044-5065 | arrykusumaputra04@gmail.com | linkedin.com/in/arry-kusuma-putra | arryputra.vercel.app

South Kalimantan, Indonesia

I am a graduate of the Diploma III Program in Information Systems at Politeknik Negeri Banjarmasin. I have an interest and experience in programming, particularly in website and application development. In my experience, I am able to work as part of a team in developing information system projects.

PROJECT EXPERIENCE

Information Security Index (KAMI) Assessment Website

https://github.com/ArryPutra/indekskami

- A website for evaluating and monitoring information security for regional government agencies in South Kalimantan.
- Developed using Tailwind CSS, Alpine.js, and Laravel frameworks.
- Internship project at South Kalimantan Provincial Department of Communication and Informatics.

Teran – Peace of Mind App

https://github.com/Teran-Capstone-Project/Teran-Mobile-Development

- An application for sharing stories, viewing stress probability, and recording life journals.
- Key features include story posting, stress probability surveys, mood-based journaling, and meditation with a timer and natural ambient sounds.
- Developed with Android Studio and Kotlin.
- Collaborated as a team across Machine Learning, Cloud Computing, and Mobile Development domains.

QR Code Generator & Scanner

https://qr-code-generator-and-qr-code-scanner.en.uptodown.com/android

- An application for generating and scanning QR Codes.
- Developed using the Flutter framework and Dart programming language.
- Allows users to create QR Codes with attractive designs and customizable styles.

TRAINING

Bangkit Academy by Google, GoTo, & Traveloka (February – June 2024)

- MSIB (Certified Internship and Independent Study) Program from Kampus Merdeka.
- Position in Mobile Development, focusing on Kotlin programming language and Android Studio.
- Gained expertise in application design techniques, English proficiency, and soft skills such as project management and teamwork.
- Collaboratively developed a final application integrating Machine Learning and Cloud Computing technologies.

INTERNSHIP

Diskominfo Provinsi Kalimantan Selatan (September 2024 – January 2025)

- Developed the Information Security Index (KAMI) Website for monitoring and evaluating information security in South Kalimantan's regional government agencies.

EDUCATION

Banjarmasin State Polytechnic (September 2022 – September 2025)
Associate Degree in Information Systems – GPA 3.90

- 1st Place, Website Coding Competition, Bank Kalsel, 2024.
- 1st Place, Software Development Competition, Campus Organization, 2022.
- 5th Place, International Business Administration Competition 2024, Web Design category.
- Participant, GEMASTIK XV Indonesia National Competition, User Experience Design category.
- Project-Based Learning (PBL): Developed a website for an MSME, serving as the programmer.
